

OCHRE

The image shows the front cover of a book. The cover material has a complex, woven texture with horizontal bands of color. The colors range from deep, dark blues and teals to lighter, more muted greens and browns, creating a layered, almost marbled effect. The texture appears to be that of a heavy fabric or a specialized paper with a woven pattern. In the upper left corner, the word "OCHRE" is printed in a clean, white, sans-serif font. The letters are evenly spaced and stand out against the darker background of the cover. The overall aesthetic is modern and artistic, suggesting a book that might be related to art, design, or a specific cultural theme.

dimensions: as shown 300cm l x 185cm w (118" l x 73" w)
fibre/dye: triple ply jute in indigo, hilika and marigold
fringe: cotton in indigo, hilika and marigold
custom sizes available - please enquire

natural dyes can vary from batch to batch and will change naturally over time based on use and exposure to sunlight • each two rugs will not be the same in its colour effect some discrepancies in sizes might occur • fibres should be treated with care and heavy vacuum cleaning should be avoided
